

Tuition Payments & Fees

Tuition for classes is based on the complete program from September through June (10 months). This program includes class time, curriculum selection, course development, assignments and worksheets, grading, follow-up with absent students, family support and the cost of overhead. Since the program includes all these areas, tuition is due regardless of class attendance. For your convenience, tuition may be divided into 10 monthly payments. Therefore, there is a payment in June even though no classes are held that month. Tuition payments are due into the office by the 15th of the month. For those received after the 15th, a \$10 late fee will be charged. Billings are sent at the end of each month that show parents the amount paid and still owed from the yearly total. Individual classes may also require materials fees which should be paid to the instructor on the first day of classes.

Quarterly reminders are in place to promote timely tuition payments. Student attendance for a quarter will depend on whether tuition payments are current. Registration for the next school year's classes can be completed only if the previous year's tuition has been paid in full.

If a class is dropped before the end of a quarter, a drop fee of \$25 must be paid. If the class was considered "full," with a waiting list, the drop fee is \$50.

HomeLink will give a discount of 10% off total tuition if paid in full at the beginning of the school year. NO REFUNDS if a class is dropped.
