Work on your Gestalt Art Project and it will be due next class.</u></p> <p style="text-align: center;"><i>Being good at drawing has <u>nothing</u> to do with in-born talent. It ONLY has to do with the <u>time</u> and the <u>effort you want to spend</u> on something (This is with any skill.) In fact, some artists don't begin until their 80s! It's with practice you develop the hand-eye coordination skills that train your brain to see patterns and copy something with more detail and accuracy.</i></p>
